Hi Lauren,

I really need cash flow for myself. Michael knew this when he convinced me to sign my money over to him. That I depended on dividends from Quad/Graphics. I feel totally lied to.

I don't know how many times and angles I need to ask to get my money. I feel like absolutely no one is listening. I've been now asking for over a year. Before Michael was investigated. Before [REDACTED] and [REDACTED] requested to get their money out.

What steps is Michael Hull taking to get people out of Green point who want out? The economy is great. I don't understand why Michael Hull is not selling off assets at top dollar.
Or recruiting new investors in so those who want out - can get out.

My patience is wearing very thin. Can you please help me get my money out???

thank you,
[REDACTED]
